
NOTICE

Dear Cat Owners

It was report that some residents are disposing of cat litter down the chute without placing it in a garbage bag. If you do dispose of the cat litter down the chute, please ensure that it is double bagged. You may also bring it down t the P1 garbage area.

When cat litter is dropped down the chute without first placing it in a properly secure bag, the fine dust can block the sensors and lead to service disruption.

We would also like to mention the health hazard that it also posses to our hard-working cleaning staff and superintendent.

Please be mindful when disposing of any refuse down the chute as we have had issues in the past with items that should not be placed in the garbage chute.

*Thanks,
32 Freeland, Property Management*
