

NOTICE

April 3rd, 2023

Dear Tenants of 32 Freeland Street,

We have had several complaints regarding residents using power tools (drills & hammers) in the evening. We asked that you be mindful of your surrounding neighbours as this type of noise is very disturbing and will affect other tenants "quiet enjoyment" of their unit.

Any alteration made by the tenant must be fixed by the tenant and returned to its original state.

Note: All tenants are responsible for returning their units to its original state upon vacating the premises.

*Thanks,
32 Freeland, Property Management*
